

been accomplished. Of the first printed in 1811, eighteen copies are known to be in existence, of which four of which are printed on vellum. Two of these are in England, one being in the Gray's Inn collection. One is in the Royal Library at Berlin, and one in the Royal Library of Paris. Of the fourteen remaining copies, ten are in England, including one copy in each of the libraries of Oxford, Cambridge and London, and seven in the collections of different noblemen. The vellum copy has been sold at auction for \$1,300. James Lennox, Esq., of New York, has a copy in his library, which was purchased by Mr. David Davidson, agent for Messrs. W. & Putnam, at auction, in London, in 1842, for the sum of £500 sterling—equal to \$2,222— independent of freight or duties. The custom-house officers passed it free of duty, in consideration of the great curiosity. It is the only specimen in this rich of a text.

Of the fourteen remaining copies, ten are in England, there being one copy in each of the libraries of Oxford, Edinburgh, and

AGENTS for procuring Patents in the United States and foreign countries.
They prepare Specifications and Drawings of new inventions, and transact all business connected with their preparation.

They will review and attend to the reconsideration of the applications which have been rejected by the Commissioner of Patents, or on appeal from the decisions of the Patent Office, or the presentation of an improper claim.

They will also prepare and present to the Patent Office, on behalf of the inventor, all the necessary personal information respecting the patentability of their invention, and they have their applications for patents made in proper form, and will undertake to obtain the examination of the same, and their personal attendance at Washington, by writing to them.

Models can be safely sent to us by the Express.
Good sketches and descriptions can be sent by mail.
We will send you our price list on application.

Address—**JOHN F. WATSON,**
1089 F Street, opposite the Patent Office.

AYER'S CHERRY PECTORAL.
FOR THE CURE OF
CROUP, BRONCHITIS, AND BRONCHIA.

[In offering to the community this justly celebrated remedy for diseases of the throat and lungs, and for all the ailments of the respiratory system, we are not only justified, but frankly proud, in presenting to the public a medicine which we know to lay before them the opinions of distinguished men of science and of the evidence of its success, from which they can judge for themselves. We sincerely desire continuity to the success of this medicine, and we are confident that if it does not will we hold out any hope to suffering humanity when the facts will not warrant.

Many of you are here given, and we accept an Obedient for the relief of the throat and lungs, feeling assured that they will find them perfectly reliable, and the medicine worthy of their confidence and patronage.

From the distinguished Professor of Chemistry and Metallurgy, University of California.

BERKELEY, Ms., February 5, 1887

DEAR SIR: I delayed answering the receipt of your letter, but an arduous night has been the cause of my neglect. I am glad to hear that you are in the family of my friends, and that you are interested in the health of the community. I have no new ideas to suggest, but I am confident that the medicine will be of great service to the community. I have found it to be a powerful remedy for all the ailments of the respiratory system, and I am confident that it will be of great service to the community.

Yours very truly,
HAROLD CLEVELAND, M.D.

From an Overseer in the PARKER HAMILTON, M.D. City.

DEAR SIR: I have been cured of the worst cough I ever had in my life, by your Cherry Pectoral, and never fail, when I have a cough, to use it. I am confident that it will be of great service to the community.

opportunities, and, respectively, **S. D. EMERSON.**

Dr. J. C. AYER.
Q. The following was one of the worst cases, which the physicians and friends thought to be incurable (Consume).

CHESTER, Pa., August 22, 1896.

Ans: I was taken with a terrible cough, brought on by cold, in the beginning of the winter of 1895. I was unable to sleep more than two months. Coughing incessantly night and day, I became ghastly and pale, my eyes were sore and inflamed, my throat raw, chest sore, and I was rapidly falling, and in such distress for breath that little bit of my recovery could be entertained. While in this state I was advised to take a bottle of your Cherry Pectoral, which brought me a bottle of your Cherry Pectoral, which I tried more to gratify him than from any other motive. I took it for a few days, and my coughing gradually subsided, now, I feel some from my health much improved. Now, I am, I think, to be greatly indebted to you for the medicine used, I am well and strong, and can attest to the fact.

With the deepest gratitude, yours &c.

W. C. AYER.

DR. J. C. AYER.
Q. I feel much obliged to you for the Cherry Pectoral, which I used, Lowell, Mass., and sold by the druggists generally throughout the United States and Canada. **Aug 24th**
